Who cares about damages when you are judgment proof. Especially when you live in a state that is very protective of judgment-debtors (such as Texas or Florida).

Adam, how do you respond to this?

This is a stupid law. If I own the pictures (either cuz I took them myself or cuz u sent them to me), then why can't I do whatever I want to with MY PROPERTY?

It is not against the law to put someone's name & info on the internet. All kinds of "people finder" websites do this. Nor is it illegal to put someone's picture on the internet. But when you combine the two, it somehow is illegal? That makes no sense.

The Govt has no business telling me what to do with MY property!!

Copyright law is well settled in American and international law. This law would upend that. Plus, it would create a prior restraint on someone's speech based simply on the assumption that someone's feelings might be hurt.

Content-based restriction of speech must survive strict scrutiny. This law could not survive a strict scrutiny review. Preventing hurt feelings is not a compelling governmental reason, otherwise we will need a lot more laws on the books. See U.S. v. Playboy Entertainment Group, 529 U.S. 803 (2000) (Government's interest in criminalizing speech that inflicts emotional distress is not a compelling one).

See also U.S. v. Cassidy, __ F.Supp.2d __, 2011 WL 6260872 (U.S. District Court for the District of Maryland 2011).

It is not the job of the DA or police to be baby sitters or life coaches.

Right. Secret reasons. That sounds really credible.

I would like to point out that I was the one outed here. Never once did I reach out to any media outlet regarding this. For three+ years I've never made one comment on this topic anywhere. Yet Morgan and Klein were the ones handing out my personal contact information to every media outlet on the globe. I got emails and Skypes from (to mention just a tiny few) CNN, ABC News, NBC, BBC, the Guardian, the NY Times, the S. China Morning Daily, Sky News, even fucking Dr. Phil contacted me!

Morgan was the one running around beating the drum on this nonsense. He was the one getting all those people to contact me. It has been him from the get-go, not me! He is the one who filed this John Doe lawsuit against me. Not I. I had nothing to do with it.

I'd been doing this stuff in the background quietly for years. I'm not some idiot like Nik Richie or Craig Brittain or that moron Hunter Moore running around wanting to be interviewed and all that crap. I don't need the headaches.

That should be your proof right there. I have not sought out any publicity or any of that stuff. Morgan was the one who put my name out there and gave everyone my email address. But for his actions, you never would have heard of me or from me.

i just made the Twitter account as a way of dealing with ALL the god damn interview requests and requests for comments. I get DOZENS upon DOZENS of emails each day from all over the world. I can't even use my Skype anymore hardly cuz every time I get on, I get people trying to add me and message me and pop ups.

James Smith is my real name and this is my personal account that I have had for years and years. So it has been very disruptive to be getting all this stuff in my In Box day after day.

Again, but for the actions of John Morgan and his side-kick Philip Klein you never would have gotten my contact information and none of these media outlets would have ever known I existed.

Cheers---

Question: how did Morgan and Klein get your personal contact information?
 Is it more than just your email address and Skype account?

The proof I'm looking for is something that only a person involved in the site would have. Login information. Internal emails. Something I can corroborate with a third party.

Cheers,

As an aside, I am curious as to how it is you know Mr. Morgan and Mr. Klein. Did you know of them prior to this revenge porn stuff?

Were you aware of the fact that Morgan had his parental rights taken from him as to his three children on account of him abusing them? I just found out about that earlier today (for me, last night for you).

Are you aware that both he and Klein have a long history of misconduct and unethical activities in the Beaumont area legal system?

His ex-wife is an assistant district attorney in Beaumont named Kathleen Winslow.

Morgan has a history of seeing vast conspiracies against him.

<http://www.beaumontenterprise.com/news/article/Port-Arthur-lawyer-sues-judge-state-4558648.php>

<http://operationkleinwatch.blogspot.ro/2012/04/prk-big-update-and-lawyers-in-love.html>

I would assume that someone has internet savvy as you seem to be would have known about these incidents by now. If I can find this information out from nearly 8000 miles away from Houston, surely you could have found this stuff out, too.

So why are you hanging your hat next to a guy who abuses his own children and who is involved in all kinds of unethical situations? This guy sold those girls a bill of good and made promises to them he clearly can't keep.

THE ONLY REASON WHY HE IS DOING THIS IS SO HE CAN GET HIS NAME AND FACE IN THE NEWSPAPER AND IN MEDIA OUTLETS ALL OVER THE WORLD. NOW THANKS TO YOU, EVERYONE KNOWS HIM AND HE CAN GET RICH OFF OF THOSE GIRLS. WHO DO YOU THINK HAS BEEN PAYING FOR HIS FIRST CLASS TICKETS AND LUXURY HOTEL ROOMS TO CITIES ALL OVER THE WORLD FOR INTERVIEWS??

Prior to his Texxxan lawsuit he was a nothing that nobody outside of Beaumont had ever heard of. Now, thanks to you and other like you, he is famous. Yet you accuse me of posing!?!?

But I'm the bad guy, eh?

Cheers --

James Smith

I don't know how these idiots got my info. As I just mentioned to you in a email that probably crossed this one, I'd never heard of them before until the lawsuit was filed and I started getting emails and such from the media.

But take some time to read the email that I just sent you and that should give you some food for thought about how all this revenge porn stuff just got started. Morgan is looking at this as a cash windfall for him.

Morgan is making his case up out of smoke & mirrors. He has been trying to use me as a co-conspirator in his worldwide publicity hunt and PR blitz. He needs someone like me to get on the TV with me so we can make "compelling television". The news organizations want conflict and drama and arguments. Without me being there, he's go nothing. All he's go his himself and Holly and the other girl putting on fake tears and being all dramatic. He needs me to jazz it up and to play the role of the heel (to use a WWF term).

Don't you get it? You and those girls and the politicians are all being used by Morgan and Klein just so they can make money off of this "revenge porn" crap. But he can't do it without a heel. Thus, he got me to fill that role.

Cheers--

I know of them because of the Texxxan case. Had never heard of them until I started looking into the site.

People are imperfect creatures driven by complicated, sometimes imperfect motives. But if every person's blemished past were of interest to me, I'd be researching and writing forever.

But that's neither here nor there. Got any proof that you owned or ran the site? What was Hunter Taylor's role?

I am guessing Morgan is the guy you were alluding to when you mentioned on your Twitter account about the vexatious (sp.?) litigation in Texas. According to the South East Texas Legal Journal, Morgan has filed over 900 lawsuits since 1997.

<http://setexasrecord.com/news/215699-morgan-suit-against-attorney-latest-act-in-nasty-divorce-proceedings>

This article was written before he lost custody of his kids and started filing lawsuits against the judge in that case.

I wrote a long fucking response to this message here but I lost it when i clicked the wrong button and deleted it by accident. Since its about midnight here and I got work tomorrow, I'll give you the short answer. Hunter was a boy who thought my daughter was in love with him.

For the most part, the site was set up via TOR using pre-paid debit cards and GPG encryption whenever possible.

When Morgan held his press conference and started hollering FBI this and FBI that, and when his P.I. Klein started sending me threatening emails about how he was gonna find me and get me, etc., all that shit got deleted and over-written ASAP.

But here are some pics that were saved from the site of Holly Toups, the main cry baby.

So your proof that you ran Texxxan is:
 1) that the site was set up using TIR and prepaid debit cards, but that was overwritten quickly when Klein and co. entered the picture; and
 2) Pictures watermarked with the Texxxan logo.

Do I have that right? If I do, that's not even remotely proof.

Did you upload the Texxxan photos to myex.com? Do you run that site, too?

You ignored the question about MyEx.com. Are you saying you run MyEx.com?

As for proof about Texxxan: internal emails, receipts, passwords -- something that can be verified by checking with the records retrieved from GoDaddy.

Another question: did you post as "JohnnySwift" on that Miami New Times article about Jacobs and Seay? If that was you, hope you used TOR, because that's not going to go over well.

No, I didn't post on the Miami New Times article. When I post I use my name, James (or Jim) Smith. No reason to use a fake name since there are millions of people named James Smith. Who is to know which post was made by me or some other James Smith, eh?

You obviously haven't been looking all that hard if you think that comment was the worst comment made about Jacobs. There are tons more worse posted elsewhere. Since the other guy in that case was finally able to share his side of the story A LOT of people have been expressing a lot of hate towards Jacobs. That New Times of Miami comment is very tame compared to most of the others. Her whole revenge porn thing was built upon a lie. And now it is coming back to haunt her.

Plus, don't you find it interesting that she was the "victim" of revenge porn not once, but twice?! After she broke up with that first dude, she goes out with a different guy, sends him naked pics & videos, and he also ends up posting them online (or so she claims). It strains credulity to think that lightening would strike twice on the same person. Personally, I think this is all fake and just a big scam by her and Troups and some of the other girls.

So now Jacobs and Company get free plane tickets to fly all over the U.S. giving interviews with Dr. Phil, ABC news, Today Show and all the rest. You don't think there is an incentive there for her to manufacture a problem where none existed before? Plus, how much money do you think she is raking in with her little revenge porn non-profit?

She would not be the first victim to be a false, attention seeking victim, would she, Adam? I would not put it past her to post her own pictures and such online just to stir things up. Sure, the first post was done by someone else. But all the rest, and all the other places? And then the claims of strangers walking up to her at Wal-Mart and such recognizing her. You buy into that, Adam?

I look at porn all the time and but for someone like Jenna Jameson or that Back Door Teen Mom girl, I would not recognize any random girl I saw naked on the interwebs in a real life situation. The world is a BIG place.

Myex.com is "run" by 3 or 4 like minded people. I am not the one in charge of it. The domain has been around for a while now and passed around / sold to other people as people would go on to other things, lose interest, or try something new out. This current iteration is something new and I have skillz and pics to offer, so we had a meeting of the minds. Whether you believe it or not is immaterial. With Texxxan the admin password was widely shared towards the end by my daughter with her friends and some friends of friends. That is why the site got so stupid in that last month

or two. Its not like I don't have a real job or other things to do with my life. So that boy, Hunter, (who thinks my daughter was in love with him) decided to be the face of Texxxan with some stupid ideas on how to make it "better" that i had no clue of until way afterwards.

You know in the end the lawsuit is going to be resolved in his favor. Now that more people are learning who attorney John Morgan really is and what he is all about (him being a serial child abuser and that Operation Kleinwatch website, and his frivolous litigation), but now that more people are learning about who that guy really is, media outlets and politicians just aren't paying him any attention.

The case is set for submission to the court of appeals on November 5th. The fact that the court denied the request for oral argument is telling. GoDaddy is a billion dollar company. Morgan is a small town ham & egg attorney. Stranger things have happened. But since the law is decades old and well-settled, the outcome seems pretty obvious.

Plus, now that the other side's story is finally getting out, the pendulum of public opinion is starting to shift away from those girls. Especially when they run around comparing revenge porn to rape. That really hurts their case. One person posted something pretty insightful saying that, "being embarrassed is not rape and is a disgusting comparison that hurts real rape victims" (or something to that effect).

Cheers--

James Smith

ps
I know form your emails that you have been communicating with Toups, Morgan, Klein, and those others. So please do not expect me to help you help them. I have been in significant communication with Aaron McKown and Denise Gremillion over the past nine months. Denise has been given the information she needs to pull Hunter's nuts out of the fire when she feels the time is right.

My bad. it wasn't Holly who get hit twice by this. It was the other girl
 in her group, Rebekah Wells.
<http://www.rawstory.com/rs/2013/05/30/cop-sued-over-revenge-porn-by-woman-he-met-working-a-similar-case/>

Same difference, though, since both them girls are apart of the same
 anti-revenge porn group.

So if I am not in Namibia, then where am I?

I am, obviously, an American, born in the U.S.A. and all that. But so
what? Americans are allowed to move elsewhere and take jobs overseas.
This isn't Russia!

So where am I then?

So smart guy, where am I then if not Namibia?

You think you're smarter than ABC News, CNN, BBC, ITN or the other ABC in Australia? Because they all interviewed me live over the phone back in Aug - Sept. They all had to call me cuz I'll be god damned if I'm spending my money sitting on an overseas call for sixty minutes or more. You think they don't know what the 264 country code goes to?

Cheers--

James Smith

Even if I told you what I knew, and even were it 100% true, you wouldn't be honest. So no point in going down that road. I'm bored with you.

Lose this email address.

you act like you would be giving something up by saying what you know.
 telling me what you think isn't going to change what you think. you are
 going to think it regardless.

Whatever. I guess you know more than ABC news, CNN and all the rest of them guys. If they thought I was so fake, then why did they take the time and money to interview me? You don't think they did their due diligence before picking up the phone and putting me on the air? Yeah, maybe one could have got faked out. But not all of them. I've been contacted by multiple dozens of news organizations over the past nine months. MULTIPLE DOZENS.

Plus, you think I am the only person to be arguing against all these stupid revenge porn laws? Just on your twitter alone you got arguments going on with people from all over the U.S., including that crazy dude from Arizona who says he's gonna sue you and run for governor!

You're claim to secret knowledge is just a bogus debate tool

You can sit and laugh and call me a loser and troll and whatever else you want to. But the fact remains is that you are the one who is supporting and assisting a man who is a serial child abuser (John Morgan) and another man who is pretty much a fraud (Philip Klein). Both of whom have a history of extremely frivolous litigation and very poor ethics. (Question: If you were looking to hire a lawyer to represent you in a revenge porn lawsuit (or any lawsuit, for that matter), would he be your first choice?)

I have read many of your blog postings and you seem pretty insightful and intelligent. So you know damn well that the only reason why Morgan brought this Texxxan lawsuit was just so he could get his face on TV. You know that he made promises to those girls he simply cannot keep.

GoDaddy is a billion dollar company that hosts like 50 million websites. There is no way in hell that they can police that for inappropriate content. If they were to allow a heckler's veto over what kind of sites can exist or not exist, they'd go out of business. So unless the site is selling child porn, drugs, or Mexican hit men for rent, what do expect them to do?

Ask yourself this: Is Hollie Toups' and the other girls' lives better now than it was ten months ago before this lawsuit nonsense started? Morgan could have sat there quietly and had GoDaddy close the site and make it all go away without holding press conferences all over the place. Texxxan clearly violated their TOS, so our shut down by GoDaddy was a given. No lawsuit was necessary to accomplish it. GoDaddy doesn't want to have that kind of business anyways.

No one would have ever heard of Marianna Taschinger, Hollie Toups, Kelly Hinson and the rest of them girls but for the bad faith actions of John Morgan and Philip Klein. Now for the rest of their lives they will be associated with this 'revenge' porn bullshit.

You've read the same stuff on Mark Bennett's blog that I have, as well as everyone else of note who has commented on this case. It's complete BS. The only reason why it was filed is so Morgan can make money and notoriety off of the backs of these girls. He and Hollie Toups have been flying all across the U.S. for interviews and talk shows. He is the center of a national moral panic and I'll bet his phone has been ringing off the hook. Before January, he was some small town jerk of an attorney facing multiple state bar ethics complaints and a host of angry ex-clients and a grand jury investigation (which he still is, FYI).

Again, if you were looking to hire a lawyer and PI for a revenge porn matter, would you have hired Morgan & Klein?

Call me a loser, troll or whatever. But you are the one who is assisting / enabling this serial child abusing retard of a lawyer with this bogus lawsuit!

Instead of doing a hit piece on me or the Texxxan.com website, how about one on Morgan and how he has turned this into a money making scheme for himself and Klein? Or would that be too much like work?

Cheers--

Think twice, funny guy, about what you post. You are reachable, your whereabouts known, and you have a lot more to lose. I am not the guy who posted a comment on your site on a months old thread about Brittain. Taking investigative tips from Klein & Morgan will only cause you personal problems that you don't need.

You always seem quick to shoot your mouth off and make snap judgments and comments on topics that later turn out to be wrong. Sometimes it is best to leave certain things unsaid, especially when you cannot be 110% certain in your theories. Klein, Morgan, and the rest don't care. If you screw up, its not their ass on the line. They are 1000s of miles away from you and they are already settled in their careers / lives. You are just trying to start yours. They will let you take the heat and sit on the sidelines laughing.

In their rush to grab headlines for themselves they have thrown around a lot of accusations that turned out not to be true, and its gotten a lot of people pissed off.

To quote Heisenberg, "if you don't know who I am, then maybe your best course would be to tread lightly." There are many levels of meaning to that statement. I suggest you take it to heart, Adam.

Cheers--

I know it wasn't you who posted that. I never said it was, unless you think that I'm about to write about you. Maybe later, but not now.

"You are reachable, your whereabouts known, and you have a lot more to lose."

What, exactly, do you mean by this? Because that, and your Heisenberg quite, I take to be a threat. Please correct me if I'm wrong in that assumption.

I apologize then. I don't have anything to do with Is Any One Up or Down or whatever the fuck they go by now, or that idiot Hunter Moore or that other idiot in Arizona who wants to run for governor and be a revenge porn king, but I thought you were accusing me.

You sit there and you treat this whole subject as some kind of joke. You line yourself up next to a serial child abusing, headline grabbing, ethically "challenged" (to say the least) lawyer and his cretin PI side-kick. You are who you associate with. This whole thing started when John Morgan decided to horribly take advantage of some girls who didn't know any better. What their boyfriends did by posting their pictures was mean. It's not something that I would personally do, but I can understand why they did it. But what Morgan did is unconscionable. He knew going into this that he didn't have a leg to stand on in court. He did it for his benefit, not theirs. And now these girls are suffering for it. And then you have these other girls who are purposefully turning themselves into professional victims, running around crying about how their life was totally ruined cuz some random people might have seen their tits. But now they need money so they start a bogus non-profit and they solicit donations and get free plane tickets all over the place.

The WHOLE reason why I got involved in this to begin with, agreeing to all the TV and news interviews, was to show the hypocrisy of their position and to show the world that their answer to Free Speech was the suppression of speech. I also have consistently pointed out that the only person responsible for them being in their predicaments was themselves! Sending random guys naked photos is NEVER a good idea - especially in this day & age where nude pics on the internet is such a well known phenomenon, and that no one should be surprised or upset when it happens to them because it's happened to everyone else before them.

That is why I got involved in all the interviews and public speaking about this. I don't give a shit about the Texxxxan site. All that shit has pretty much gotten reposted elsewhere within weeks of the site being closed down. And their lawsuit doesn't scare me one bit 'cause it's got no legs. Its about these man hating fema-nazis who wanna be professional victims. Just pretend for a moment that we live in a Bizarro World and somehow GoDaddy loses. What would be the consequences for the interwebs then do you think, Adam? (Here's an idea, how about doing an article about that and you try to envision what the fallout would be cuz such a decision would not only affect revenge porn, but any other disagreeable website (such as yours! lol).)

As far as your "assumptions" are concerned, I don't know what you have been assuming. You've been wrong about so many of your assumptions before, so why stop now? Cherry picking words out of context cannot some how magically warp the author's intent into something it isn't. And, of course, there is the fact that the term "threat" is very vague and ambiguous. There can be economic threats, physical threats,

financial threats, legal threats, reputation threats, family threats, professional threats, health threats, conditional threats, unconditional threats - all kinds of threats. We live in a crazy world filled with all kinds of predictable and unpredictable events.

As I sit here getting ready for bed at around 01.15 I am watching on my Sat TV about yet another mass shooting in the U.S. at a military facility. With regards to the Heisenberg quote, I take it to heart in my dealings with people. I get LOTS of hate mail. I mostly ignore it. But sometimes I am tempted to react and start writing something nasty or stupid back. But then I remember Heisenberg.

See, I don't know who the other person is on the other side of the email. He could be a very violent and impulsive person who owns several guns and isn't afraid to use them, and who could care less about consequences. He might be hearing voices or otherwise off his meds. Or he could be some random stereotypical basement dweller who is totally harmless, and who takes out his rage on his keyboard.

But I don't know.

Just because the angry guy can't get at me personally (because I live very far away and there is no paper trail leading to me, just to dead ends or fake IPs / fake persons), doesn't mean he isn't going to take it out on someone else he can get to who could be completely innocent. So I tread lightly.

Didn't that Hunter Moore guy get stabbed in his home driveway by an angry / crazy person not too long ago?

And you are even more known than Hunter. You live a very open life with your home address and work / family information displayed to all the world (or otherwise easily found). If someone wants to sue you, they can get to you. And if someone off their meds starts hearing voices, same thing. Because I don't know which person I could be dealing with, I tread lightly. But that's just me. You can be however you want to.

Now Im off to bed cuz I gots to work for The Man come mornin' time!

Cheers--

James Smith

p.s.

If you want to do a hit piece, you should do one on how it came to be that a serial child abusing lawyer (who believes there is a vast conspiracy against him and Klein) got to be the face of the anti-revenge porn crowd. And why these man-hating feminists are willing to give him such a pass when it comes to this. (similar to Alec Baldwin and all his anti-gay remarks, yet the Hollywood liberals and GLADD crowd still love him).

You're leaving in the air the implied threat that you (or some mysterious person) is going to do me physical harm because I speak out about something. You know that was the implication, but you do to have the balls to come out and say it nor the integrity to disclaim it.

You're no free speech advocate. Go fuck yourself and don't contact me again.

I never said anything about doing you some physical harm. I have no intentions of harming you. Of course, you can believe or disbelieve that if you want. But I don't know what is going on inside your head or what conclusions you chose to jump to.

And why would you think that i would want to cause you personal harm?
 As a perfect case in point, and what I meant but I guess you didn't
 see, is that I see your "arguments" going on with Chance Trahan. The
 guy obviously has a screw loose. He also professes to owning a bunch
 of guns, is a racist, and expresses thoughts about unpredictable
 violence. Yet you keep throwing rocks at the dude and doing other
 other things to aggravate the situation like your personal attacks
 against people involved in all this revenge porn nonsense.

You don't know anything about this guy or whats going on in his life
 or what thoughts are in his head. From a quick Google maps check, it
 looks like he lives about five hours from Tempe-Phoenix to your exact
 front door. So here are are, pissing off a lunatic racist gun owner
 who lives a few hours from your home. In what world do you live in
 where that is a good idea? Seriously, dude.

I'm glad you care about my physical wellbeing enough to raise this specter as a preemption to my writing about you. And that you cared enough to find my exact address to show how much you care.

Seriously, get fucked. Stop writing to me.

You obviously think you know who I am. But you truly do not. You will not ever find a single scrap of paper with my name on it. Attorney John Morgan, Klein, and some of your twitter friends have claimed to know my name. They have even offered up several different names of different people at different times that they claimed were me. Yet you do not know me or anything about me. I have no social media, FB or anything else (but this one twitter account I use). If you google me, other people who share my name come up as it is a common name. There are no photos of me online anywhere. Just because other people may share my views on this issue does not mean that we are all one person. Just like people speculate about the many sox that this Bullyville guy uses to argue with himself, Cpt Obvious, or others. -- And despite the tweets that people have directed to me, I've never once had dick to say to Bullyville or anything about what he does. He is a nonentity to me.

I see your emails. You think you know who I am, and you're totally wrong. I haven't lived in Texas in over eight years, and I have not lived in the US for the past 2 1/2 yrs. My only connection to the state is my daughter when she goes to SMU in Dallas recently and some commercial property I own in Ft. Worth so I can still claim TX for income tax purposes (TX has no state income tax. While my employer is based overseas, I have to file US federal income tax and TX has no state income tax.)

Nor, despite what you tweeted, do I send out death threats. I made ONE simple observation to you in a private email not a tweet and that was it, and it was in reference to that lunatic in Arizona who you kept throwing rocks at. And you know that it is a true observation. There are a LOT of crazy, violent people in this world who don't play by your rules, Adam. You are a trust fund baby and you think the world runs a certain way. Except a lot of people don't play by your rules. They have their own rules, or they just ignore the rules and don't give a shit. But even crazy people will react to what you say or do to them. Like that Alec Baldwin stalker who just got 7 months in Rikers. You think she gives a shit about cops or court orders or going to jail? My bet is that as soon as she is released, she'll go get a gun. You mark my words. And there are MILLIONS of people just like her.

Your friend and hero at Bullyville has done far more for Hunter Moore's cause than anyone else on the planet!

You have decided to link yourself to attorney John Morgan. Yet now we see that he is being investigated by a Special Prosecutor for aggravated perjury and witness tampering, along with Philip Klein. <http://setinvestigates.com/mdetail.asp?hn=setinvestigates&cs=&l=special-prosecutor-investigating-alleged-perjury-witness-intimidation-by-a-p467-1.htm>

I've not once claimed to be a "good person". Morgan and his revenge porn crowd try to claim the moral high ground, yet they are just as dirty as the Hunter Moore's of this world. But at least Hunter Moore is honest about himself to others.

Lastly, I know you have been attempting to reach the head Admin for MyEx.com to get him to comment about his \$500 take down fee. I doubt he'll respond. I think it is a despicable practice and I am very much

3/18/2014

against it. At the end of Texxxan.com it came to be that Hunter Taylor tried to pull the same stunt. I spoke out against it when I was asked about it on the TV shows. That shit isn't ever going to come down. Once its on the interwebs, it is there forever. At least be honest about it. My running a website that hosts nude pics of girls is one thing. They took those pics of their own free choice and I am not the one who hurt them or broke their heart. But lying and stealing their money is something else entirely.

Cheers--

James Smith

ps

On the subject of death threats, I personally think that Bullyville's claim of death threats is BS. I wouldn't put it past him to have posted it himself just to stir the pot. He uses so many soxs its hard to tell. or someone could have posted it just to get him to involve law enforcement. Anyone who were to get charged would be able to use the criminal courts to issue subpoenas and such to Twitter to unmask Cpt Obvious, Bullyville, you and the others who play that doxing game. Either way I could careless.

What do you mean by this?

Dear Sir,

I means EXACTLY what I said. Do you not understand plain English?

When you idiots dox the wrong person or post bogus information you lose ALL credibility. I warned you of this several weeks ago, Adam. You have absolutely no information to link that person to any type of involvement in revenge porn or to link him to me. I read your emails. Thus, you failed.

I, on the other hand, have absolute proof positive that James McGibney and his wife are behind the revenge porn sites Bullyville & Cheaterville. And I have absolute proof that you are working with him and that other guy who goes by the name Captain Obvious. So when you are squared off against someone in a duel, and your first shot misses, that means the other guy gets a free shot at you, right?

I happen to work for a large multi-national company overseas, as I mentioned to you before. As such, my HR Dept. has access to the LexisNexis Accurant LE Plus and ChoicePoint CLEAR databases so as to fulfill all of our Govt contracts and regulatory requirements. So if I were to say look up an Adam Steinbaugh or a James McGibney, I would have access to a whole host of valuable personal, financial, and legal information. What kind of car they drive, who they bank with, where they have lived at for the past 20 yrs. (and who with), credit reports, traffic and arrest info, property transactions, civil cases, any kind of hunting, fishing or drivers licenses, or trade licenses, and just pages and pages worth of stuff. But not just on them, but on each of their family members, too! And the family members of those family members.

Yeah, it would be a gross violation of my company's policy. But with hundreds of such requests being made each and every day, I'm pretty sure it could be done without notice. Especially if I'm totally cheating on my wife by sleeping with a clerk in the HR Dept. who worships the ground I walk upon.

And if that information on all those people found its way to a document hosting site, well, that would be just too bad, wouldn't it? But then again, you guys started this game first. So how would Mrs. McGibney feel to find her personal details doxed or her family members doxed? Or Mr. & Mrs. Steinbaugh? You think they all want to be involved in you guys' game of doxing people and ordering twitter followers to "destroy their lives" like Bullyville and Cpt Obvious always call for?

You fools doxed the wrong guy with no proof that he is the one involved in revenge porn or that I am him. And, for the record, I am not him and he has no involvement with me. But no one can doubt that you are involved with it or that McGibney is or that you are involved with each other.

Its just after 10 pm here so I am going to get something to eat and take a nap before I have to come back in and answer some emails and BS before the

US offices close at 5 pm local.

But you think about that, Adam. You doxed the wrong guy and sooner or later he is going to find out what you idiots did (assuming he googles himself with any regularity) and he's gonna know who did it and he's gonna come looking for answers. And you guys might not like it or how he goes about it. There are a lot of crazy, irrational people in the world.

Cheers--

James Smith
