Subject: Tom Retzlaff Is Putting Your Son's Career At Risk

Dear Mrs. Hollas

I am a resident in the neighborhood in which your ex-husband lives and I am gravely concerned about having this ex-con with sexual assaults, terroristic threats and stalking on his record being allowed to live at 8312 West Elm St under your son's name. CLEARLY your son has the power to do something about this and has refused to do so. WHY has he not done something about his good-for-nothing criminal father using his name to live in a house where he conducts criminal behavior from an internet connection in his son's name? Isn't your son a Military Police Officer? I should think his C.O. would want to know about this. Is the misery that Thomas Retzlaff has brought to your life worth your son risking his career?

I have attached a document which was released to the public just tonight. It is from a 2013 San Antonio Police Department investigation of your ex-husband. Its proof positive that some of the things that people have been accusing your ex-husband of are absolutely correct. The SAPD traced threats that Thomas made right back to the Cox internet account in Collin's name. This report is now available on the internet for anyone to see, courtesy of the Freedom Of Information Act. Based on everything else that has already been released to the public its quite clear that your son is aware that his father has been living at 8312 West Elm St under his name.

And Mrs. Hollas, you should understand something here. What's contained in this report is very damaging to your ex-husband in those court cases he is involved in. Just from the evidence provided in this one document, it is now clear that your ex-husband perjured himself in federal and state courts. He already has had one arrest warrant issued for contempt. No doubt he is gunning for another.

The fact of the matter is I have neices and I do not not want this man in my neighborhood any longer. And I am appalled that having gone through what you and your daughter did with this cretin - you and your son would sit back and passively allow this man (if you can call him that) to live in a neighborhood with young families and little girls - many of whom are the same age as your daughter and her friends were when your then-husband molested them.

I DO NOT WANT THIS MAN LIVING IN MY NEIGHBORHOOD! I have had it. I have already been in contact with the Phoenix PD. I implore you and your son to do the right thing and QUIT ENABLING THIS SCUMBAG.

Sincerely,

D.S.
